

Business ConneCT Employee

Improved efficiency and productivity

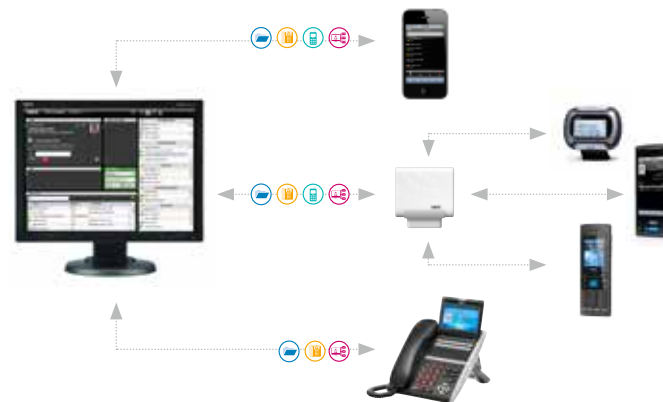

Employee

UNIVERGE® Business ConneCT, NEC's versatile all-in-one Unified Communications & Collaboration (UC&C) suite, integrates all communication streams and presents them in a single view, giving employees control over how and when to be contacted, via a choice of devices – in the office, at home and on the move. Business ConneCT includes call control, presence, voicemail, operator and directory services, as well as a comprehensive contact center.

Adequate response to incoming calls lead to revenue growth Bridge the gap between Computer and Phone

> Use Business ConneCT for your colleagues' availability and call him with a simple mouse click. No need to read your phone's manual anymore. Simply use the BCT Client to transfer a call, create a conference call, view missed calls or listen to your voicemail.

Improve the reachability of your staff

- > Control how (manually or via the built-in calendar or Microsoft® Outlook) and where (Voicemail, mobile number, secretary, home phone number) you want to be reached;
- > Your mobile work force: extensive support of mobile DECT handsets (central directory, messaging) and Smart Phone users.

Improve the efficiency and productivity of your staff

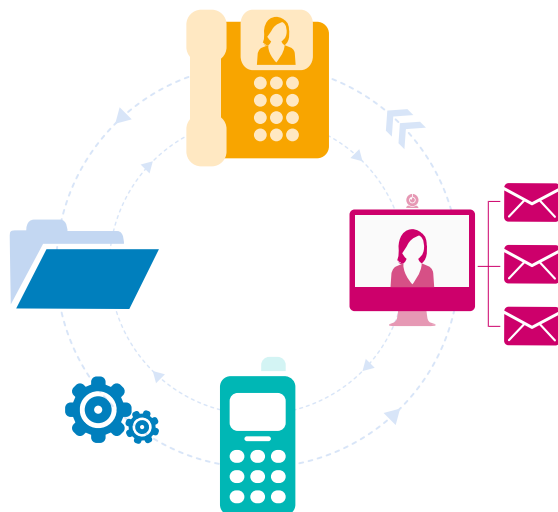

- > Dial from Microsoft® Outlook, Microsoft® Office and Web pages;
- > Fast directory searches, with real-time phone and presence information;
- > Collaborate with Secure enterprise Instant Messaging; break down communication barriers and connect remote team members.

Support flexible working models

- > Multi-role (e.g. in peak hours some of your staff act as Business ConneCT Agents or Operators);
- > Work remote with Softphone or Smartphone

- On-line Help

- Presence Delegation
- Languages: Brazilian, Chinese, Danish, Dutch, English, French, German, Greek, Italian, Japanese, Norwegian, Polish, Portuguese, Russian, Spanish, Spanish Catalan, Swedish, Turkish

Presence

Presence information allows users to check whether colleagues are present or busy. A single view shows the availability of everyone in your organization in real time (PC, calendar, phone) and you can contact colleagues the minute they become available.

Mobile Client

Business ConneCT's Mobile Client works with the majority of mobile phones, making them true extensions of the enterprise telephony infrastructure and giving mobile workers the same familiar experience on their mobile phone as they're used to on their office PC.

Voicemail & Messaging

Business ConneCT has built-in Voicemail. Activation can either be controlled through the Business ConneCT calendar or through the Microsoft Outlook calendar. Instant Messaging (and DECT and SMS Text messaging) provides an alternative way of contacting a colleague while he or she is busy on the phone or in a meeting. It can also be used as soft break-in, while for remote workers it saves communication costs.

Directory Services

Business ConneCT provides access to up-to-date and powerful directories that also show phone and presence status. Employees can create their own personal list of contacts, while external and web-based directories can also be integrated. The Hotkey Dialer can dial any phone number in any application on the screen.
